Undergraduate

2017 Entry

Year 12 Open Day Booklet

- As you are approaching the end of the academic year, you need to start considering what course you'll be studying and where you're going to study it.
- This booklet is aimed at year 12 students who will be entering university, as undergraduates, in 2017. You need to, therefore, start visiting universities in 2016 to give you a good idea of where you'd like to study.

University Open Days!

- Open days are a great way to get a taster of university life. It's a great opportunity to travel up and down the country, visit university campuses and explore higher learning opportunities.
- Attending open days are crucial as they will provide an insight of what it would be like to study at university and the structure of your course
- Open days are the best way to determine what course you would like to study and which university you would like to study at
- Many people make the mistake of not doing enough research about their course or the university they're applying to. Open days are a good starting point for researching where you would like to study.

Please speak to Ms Bryan in the sixth form study room for further information
