USE OF DIGITAL IMAGES

The use of digital/video images plays an important part in learning activities. Students and members of staff may use photographs/videos in presentations in subsequent lessons or to celebrate success through their publication in newsletters, at school events, curriculum work, display purposes, productions, trips and sporting events. Photographs/videos will also be used on the School Website, School Prospectus and Sixth Form Prospectus and occasionally in the public media.

The Bishop Stopford's School E-Safety Policy is available to view on the School website.
