

KS4 Headline Performance Measures 2019

Progress 8 -0.31

This score shows how much progress pupils at this school made between the end of key stage 2 and the end of key stage 4, compared to pupils across England who got similar results at the end of key stage 2.

Attainment 8 41.1

Schools get a score based on how well pupils have performed in up to 8 qualifications, which include English, maths, 3 English Baccalaureate qualifications including sciences, computer science, history, geography and languages, and 3 other additional approved qualifications.

Grade 5 or above in English & maths GCSEs 29%

The percentage of pupils who achieved grade 5 or above in English and maths GCSEs.

EBacc average point score 3.47

The EBacc APS calculates a pupil's average point scores across the 5 pillars of the English Baccalaureate, allocating points to a pupil's best grades and dividing by 6 (the science grades count in 2 pillars, meaning a total of 6 pillars) to create an average point score per pupil. This measure is an average across the subjects (i.e. we divide the total by 6) and so is on a different scale to Attainment 8 which we calculated by simply awarding points score across 8 qualifications (without dividing the total).

Staying in education or entering employment 97%

This shows the number of pupils who either stayed in education or went into employment after finishing key stage 4 (after year 11, usually aged 16). This is for pupils who finished year 11 two years before the year of publication. For example, the 2019 table shows pupils who finished year 11 in 2017, which is the most recent data currently available. This figure covers any sustained education or employment destination.
