

Bishop Stopford's School

Brick Lane, Enfield, Middlesex, EN1 3PU

Headteacher: Mrs T. Day BA (Hons), NPQH

4th December 2020

Dear Year 10 Parent/Carers,

Further to my letter of the 26th November, I have unfortunately made the decision to extend the period of remote learning for Year 10 for a further week due to staffing constraints. **Year 10 will not return to school until Monday 14th December; this is in keeping with Government guidance and the School's Remote Learning Contingency Plan.** I know that Year 10 students and parents will be disappointed with this news. The decision has not been taken lightly, but has been made to ensure the safety of students and staff.

We have been particularly impressed with Year 10's response to remote learning and live streaming and we would like to congratulate them on their ability to adapt and thrive in these unprecedented times. We would also like to thank parents for supporting us in ensuring that all of our students access and utilise the available resources.

In the interim please see additional guidance below:

What to do if your child develops symptoms of COVID 19

If your child develops symptoms of COVID-19, they should remain at home for at least 10 days from the date when their symptoms appeared.

All other household members who remain well must stay at home and not leave the house for 14 days. The 14-day period starts from the day when the first person in the house became ill.

Household members should not go to work, school or public areas and exercise should be taken within the home.

Household members staying at home for 14 days will greatly reduce the overall amount of infection the household could pass on to others in the community.

Symptoms

The most common symptoms of coronavirus (COVID-19) are recent onset of:

- new continuous cough and/or
- high temperature
- a loss of, or change in, normal sense of taste or smell (anosmia)

For most people, coronavirus (COVID-19) will be a mild illness.

If your child or anyone in the household does develop symptoms, you can seek advice from NHS 111 at: https://www.nhs.uk/conditions/coronavirus-covid-19/symptoms/ or by phoning 111.

If you are able, move any vulnerable individuals (such as the elderly and those with underlying health conditions) out of your home, to stay with friends or family for the duration of the home isolation period.

How to stop COVID-19 spreading

There are things you can do to help reduce the risk of you and anyone you live with getting ill with COVID-19.

Do

- wash your hands with soap and water often do this for at least 20 seconds
- use hand sanitiser gel if soap and water are not available
- wash your hands as soon as you get home
- cover your mouth and nose with a tissue or your sleeve (not your hands) when you cough or sneeze
- put used tissues in the bin immediately and wash your hands afterwards

Further Information

Further Information Further information is available at: https://www.gov.uk/government/publications/guidance-to-educational-settings-about-covid-19

Yours faithfully,

Mrs T Day, BA (Hons), NPQH Headteacher
